DETAILED ACTION

*** This office action is in response to Applicant's Amendment filed May 02, 2006. Claims 2-19,22-23,38,40,42, and 44 are pending.

Allowable Subject Matter

1. Claims 2-19,22-23,38,40,42, and 44 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:
Applicant's amendment filed May 02, 2006 and convincing remarks of record have overcome the rejections. The references of record including Casagrande (2004/0012009), Lowrey (6,764,894), alone or in combination, do not fairly anticipatively disclose each and every aspect of the phase changeable memory cell and method thereof as claimed, or fairly make a prima facie obvious case of the claimed phase changeable memory cell and method thereof, in combination with other claimed limitations as recited in base claims, such as in base claim 2, the inclusion of having a top electrode on the phase changeable material pattern, the top electrode having a tip that extends toward the bottom electrode, wherein the bottom electrode has a planar portion and a vertical portion, wherein the tip of the top electrode has a center along a length and width that is aligned with a center of a facing surface of the vertical portion of the bottom electrode, and wherein the tip of the top electrode forms a sharp point that is substantially more narrow than the facing surface of the vertical portion of the bottom electrode.
